

# Logix4 Coda Financials

UNIT4's self-service pre-packaged data analysis and reporting tool  
– also available on the web

Many Coda Financials users tell us they are struggling to gain real insight into the dynamics of their businesses as they continue to spend 80% of their time searching for information and only 20% analysing it.

Vast amounts of information needs to be captured and analysed across databases, departments and projects fast and effectively if much needed cost savings and efficiencies are to be achieved.

Organisations continue to rely on manually-intensive reporting tools or spreadsheet-based approaches when it comes to decision making.

Logix4 Coda Financials ensures you spend your time where it really matters.

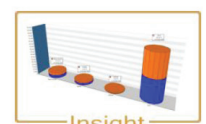

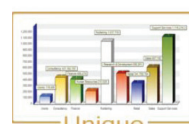

## Instantly unlock data assets...

Logix4 Coda Financials is a self- service data analysis and reporting solution that delivers pre-packaged, straight out of the box analytics, specifically developed to enable users of all ability levels to quickly and easily interact and analyse their financial data, drawing on key information to explore profitability, creditors, debtors, assets, budgeting, overheads plus much more.

Through both desktop and web based options, Logix4 Coda Financials empowers users to achieve time savings and reduced workload by removing the need for designing and developing custom reports. Using simple drag-and-drop actions; managers, budget holders and front-line users can get immediate answers to ad-hoc questions while enabling these insights to be shared with others.

## Key Benefits

- **Exceptional Ease of Use** – Logix4's pre-packed data analytics and familiar user interface takes the guesswork away by prompting areas of analysis that are of primary interest to users.
- **Delivers immediate time and cost savings** - reduces the man days spent finding, viewing, analysing and reporting on data with in excess of a 90% man-day reduction being reported in many cases. Finance teams and budget holders can quickly identify previously untapped or "hard to get at" areas for cost savings.
- **Day One Return On Investment** – By unlocking the value hidden in your Coda Financials application.
- **Get a single view of information** from all your applications in a single, intuitive interface. Logix4 Coda Financials can be extended to multiple data sources/ systems.
- **Web-based architecture**– Logix4's web client provides the ability for multiple users across an organisation to access Key Performance Indicators (KPI's) in an intuitive browser environment. With Logix4 on the web, it is easy and cost effective to empower a large number of users to access and visually analyse their Coda Financials data.

## Logix4 Coda Financials in action

- **Easy to install, configure and minimal training required** – Logix4 is up and running in a matter of days with typical end user training lasting less than an hour
- **Comprehensive array of reports** – including management accounting style reports such as Profit and Loss, Trial Balances, Accounts Payable and Accounts Receivable.
- **Instant results** – Logix4 Coda Financials arrives on your desktop with configurable drilldown capabilities for all your Coda elements, which allows users to investigate any outliers quickly and easily. The solution gives users “Headline” analysis through traffic lights and trend arrows
- **Low impact** – Logix4 Coda Financials requires no dedicated hardware and incurs no installation down-time as it uses non-proprietary SQL based technology.

“This new tool is a valuable addition to our customer proposition. Logix4 empowers casual and business users alike to ask questions of their underlying Coda Financials data easily via a simple user interface. Immediate answers are generated without the need to call on technical resources thereby saving both time and money, which is welcome in these challenging times.”

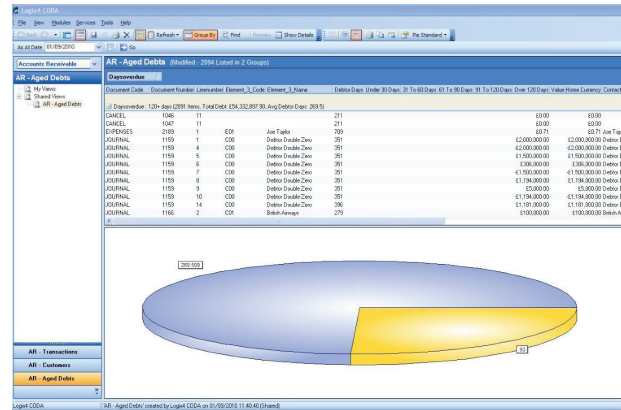

**- Anwen Robinson, UK Managing Director for UNIT4**
